

SATYAM SINHA

Java Developer | Spring Boot | Microservices | REST APIs | SQL

+91 7363811801 | satyamsinha920@gmail.com | [LinkedIn](#) | [GitHub](#) | West Bengal, India

PROFESSIONAL SUMMARY

Java Developer with 1.6+ years of professional experience building scalable backend applications using Java, Spring Boot, and REST APIs. Proficient in SQL databases (PostgreSQL, Oracle), microservices architecture, and Agile/Scrum practices. Passionate about writing clean, maintainable code and continuously learning new technologies. Experienced in event-driven systems with Apache Kafka and containerization with Docker.

TECHNICAL SKILLS

Languages: Java (Core Java, Java 8+)

Backend & Architecture: Spring, Spring Boot, Spring AI, Microservices Architecture, REST APIs, Hibernate, JPA, Apache Kafka (Producer, Consumer, Event Streaming)

Frontend: Angular, JavaScript (ES6+), HTML5, CSS3

Cloud & DevOps: AWS – Basic (EC2, S3, RDS), Docker, Kubernetes

Databases: PostgreSQL, Oracle (PL/SQL), NoSQL Basics

Testing: JUnit, Mockito

Tools & Practices: Git, Maven, Gradle, Postman, Swagger, SonarQube, Redis, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer | TATA CONSULTANCY SERVICES | JAN 2025 – Present

Role Progression: Associate System Engineer – Java → Software Engineer

- Designed and built scalable microservices-based applications using Spring Boot and Java 8+.
- Built and maintained 20+ RESTful APIs using Spring Boot, following best practices for high availability and performance.
- Implemented event-driven architecture using Apache Kafka (Producer/Consumer), enabling asynchronous data processing across distributed services.
- Collaborated with cross-functional teams in Agile/Scrum sprints, participating in code reviews and contributing to best-practice documentation.

PROJECT EXPERIENCE

Certify | Mar 2026 – May 2026

A distributed Quiz platform built on Microservices Architecture using Spring Boot, Java 8+, and PostgreSQL.

- Microservices Architecture:** Independent Spring Boot services (User, Quiz, Question) communicating via REST APIs with API Gateway routing and Eureka Service Discovery.
- Async Communication:** Apache Kafka for event-driven inter-service messaging; OpenFeign for declarative synchronous REST calls.
- Database & SQL:** PostgreSQL for relational data persistence; designed normalized schemas with efficient query patterns to support quiz and user data.
- Caching:** Redis caching on quiz metadata to reduce database load and improve response times.
- Containerization:** Each service Dockerized and orchestrated locally via Docker Compose.
- Testing:** Validated services with JUnit & Mockito; Spring Cloud Config Server for environment-specific configurations.

EDUCATION

B.Sc in Computer Science

University of Burdwan, West Bengal | 2021 – 2024 | CGPA: 7.7

SOFT SKILLS

Analytical & Problem-Solving | Effective Communication | Quick Learner & Adaptable | Team Collaboration | Time Management | Proactive Attitude
